Individuality

There is an individuality about Kohn Brothers' Clothing—that "something" which marks and makes it just a little different, if not always just a little better than the ordinary "ready-made."

One point of excellence in their clothing and that which gives it individuality is the trimmings, finishings, etc. No cheap linings are used, it's either silk or all-the woods green, and every piece of thread used is pure dye silk, thoroughly tested before using.

All garments made in their own shops under their own personal supervision. It is this which makes "ready-made" clothing—the "New Kind"—desirable.
